

# INTEGRATED MANAGEMENT SYSTEM POLICY

At ICACSA CONSTRUCCIONES S. DE R.L. DE C.V., we are specialists in the development of Metal-Mechanical, Civil, Instrumentation, Electrical and Complementary works; collaborating to increase Mexico's infrastructure.

We have the firm commitment with the pertinent interested parties to fully meet their needs and applicable legal requirements; under safe working conditions, healthy with the protection of biodiversity and ecosystems; for this, we guarantee to promote coherent compliance between ours offers and operations; with scope in Supply, Engineering, Fabrication, Installation, and Maintenance; for the Public and Private sectors.

Through the following guidelines:

- A. To improve the performance of the processes, implementing necessary actions as the results of the monitoring and measurement of the IMS.
- B. To eradicate the hazards and reduce the risks utilizing a hierarchy of controls in our operations, promoting the safety of our internal and external collaborators, encouraging bi-directional communication.
- C. To implement controls to prevent environmental pollution, achieving to minimize and mitigate environmental impacts identified in the activities of the development of products and services.
- D. Sustainable use of resources, the mitigation and adaptation of climate change; for the benefit of society, economy, and environment.

YOURS FAITHFULLY:

GENERAL MANAGER.
